Homelab monthly report

November 2026. All six LXC backups verified in PBS; Immich moved to CT 115; Plex transcodes stayed under 40% CPU.

Service	Uptime	Notes
Proxmox	99.98%	one reboot for kernel 6.17.4
Immich	99.9%	moved to CT 115
Plex	100%	
Authentik	99.95%	theme v5 live

Next month: move the Kener status page behind Authentik and test a full PBS restore.
